Methodology: For total births, tallied DRG categories: 765 - cesarean with complications, 766 – cesarean rate without complication, 767 – vaginal delivery sterilization or D&C or other OR procedures, 774 - vaginal delivery with complicating conditions, 775 – vaginal delivery without complicating conditions. The CS total was category 765 + 766. Rate was calculated as CS Total / Total Births. For the rate of complicated deliveries, tallied DRG codes 765 + 774 divided by total births. **Calculations done by Kim James, CD(DONA, PALS), ICCE, LCCE.
